MASTER OF BUSINESS ADMINISTRATION @ UNIVERSITY OF KANSAS

BACHELOR OF LIBERAL STUDIES, DESIGN STUDIES MINOR @ IOWA STATE UNIVERSITY

WORK EXPERIENCE

TEACHING ASSISTANT (WEB DEVELOPMENT) @ UNIVERSITY OF KANSAS

June 2018 - Present

Assist instructor in distributing materials and answering student questions. Grade homework/projects and provide feedback to students. Mentor students learning web development skills. Provide 1-on-1 support during office hours.

FREELANCE WEB CONSULTANT

December 2015 - Present

Created and modified websites for clients. Technologies used include HTML, CSS, Javascript, React.js, Express.js,, MongoDB, mySQL, and Node.js.

OWNER @ KC BACKYARDS, LLC

October 2011 - December 2015

Operated a hardscaping/landscaping business. Created project designs in SketchUp, created company website using HTML and CSS and designed marketing materials in InDesign, Illustrator, and Photoshop.

DIGITAL GRAPHICS MANAGER @ Z3 GRAPHIX (A DIVISION OF UHLIG, LLC)

January 2003 - October 2011

Position had three main facets: managing design and prepress, managing online ordering, and marketing. Oversaw the creation of a new logo and associated branding during a company name change. Responsible for the execution of items on the marketing calendar including direct mail campaigns, website design, design of leave-behind collateral, and email.

Implemented a new online ordering system. Customers with repeating print needs could browse an online custom catalog, view an on-screen proof, and place an order that was sent to the correct output device automatically. Taught myself Python in order to customize this application and have greater control over item layout and logic. This system had a huge impact in customer retention.

Created informational websites for customers that tied in with print campaigns. Utilized HTML, CSS, and Adobe Flash.
